But these attributes are saved in the model with None value, that's why I need to access them from the view. This is my view. def get_list(request): context_list = List.objects.all() context_list = context_list.filter(active=True) index = context_list.index(context_list.id) context_list =

Text Twist 2 Full-Color Studio Pattern You can download the pattern for Text Twist 2 Full-Color Studio here. The pattern includes step-by-step instructions and a color swatch. You will need hook, yarn and 3 1â□„2mm steel needle and colored worsted/light worsted yarn. I recommend using this size yarn. I also recommend using a heavier yarn for the solid. I suggest using worsted weight for the solid and using DK or sport weight for the 2â□„3 dots. The pattern follows the Crochet Crowd Color Rules. Because this is a pattern containing an unusual stitch pattern, I also recommend a separate worsted weight yarn for the sc that is used for the background.
